---

Eric,

Thanks for discussing with me and Bob the objective of today's BSAF meeting. As Bob and I expressed, we are a bit concerned about the number of folks from the agency side (fed, state and tribal) that plan on calling in. This is of particular concern to us since we initially thought this would be a small technical group meeting (John will be presenting without any LWG Management or Exec representatives). However, after relaying our concerns to you this morning, you assured us that the meeting will be conducted as originally scoped. Namely, John will restrict his discussion to how the LWG will present BSAFs in the Round 2 Report and will answer general questions from your team. This presentation is being made in the spirit of transparency to help your team review the Round 2 Report in a timely manner.

We have agreed for some time that we can not debate or significantly modify how the BSAFs will be presented in the Round 2 Report. You confirmed this this morning. So with that understanding of the scope and objectives of today's BSAF discussion, the LWG is comfortable allowing the meeting to take place as scheduled. If the LWG Senior Managers meeting ends early, one or more LWG Management members may call in. Thanks, Jim.
